morning, which register of the probably continue colder to hight and to probably continue colder to high and to probably continue colder to high and to provide with the probably continue colder to high the property of the

hard times.

Wire Chief Mitchell, of the Western Union, said that early this morning his Company had no wires between Philadelphia and Baitimore, but about 9 o'clock five were secured direct to Washington. Washington.

The New Jersey Central route was equally useless on account of a break-

The turnplike line between Georgetewn and Oxford, Comm. was almost tooleged. Comm. Said almost tooleged and most tooleged. Comm. Said almost tooleged and the state and oxford. Comm. Said almost tooleged and the state and oxford. The state almost all the state almost all the state almost all the points of the state almost all the state almost all the points of the state almost all the state almost almost all the state almost almost all the state almost a down at Highlands and all other routes interrupted.

The Long Island truck line was down between Long Island City and Jamaica. Notwithstanding these pusifortuner, Mr. Mitchell said all occ. circuits would be consumminicate with all points except those south of Washinston and Baltimore, and said everything would be in working order on Monday.

At the office of the Postal Telegraph Company, Sunt. Cochrane summarized the destruction to wires by saying he The mails were from two to five hours behind time, with some to hear from.

## IN THE UPPER BAY.

### Sailing Vessels Arrive Bearing Marks of Furious Winds.

There was plenty of evidence in the upper bay this morning of the gale that ewept over this part of the Atlantie coast during the night. All kinds of chor, and in many instances had surtalued more or less dumare.

Plenty of craft in the unper bay has other sustained even more serious dain age. Among the latter was an found bark anchored just above Charataine. The latter was an found bark anchored just above Charataine. The latter is an interest of the control of

BOALE

Street Edge of the Edge of the Street Edge o

Just at midnight the wind began statually to decrease, until at 8 o'clock the Weather Bureau reported it at thirty-two miles an hour.

At Sandy Hook at the same time the gale was travelling just twice as first. At Sandy Hook at the same time the gale was travelling just twice as first. Indicating that coastwise steamers during the night must have been fighting with high seas almost as furious as in the August storm, when many lives were lost and vessels wrecked.

The barometer pressure in New York this morning was 19.25 at 5 o'clock, and 29.85 three hours later. The former 12 extremely low presure, but not so had as at Buffalo, where it was 28.90. The wind there at 8 o'clock was racing along from the southwest at the rate of forty-eight miles an hour.

At Detroit it was forty-four miles an hour. Beaton, thirty-six, and Cleveland, twenty-four. This, Mr. Smith said, in dicates that the storm was central on a line extending from Buffalo to the Carolina coast, and he thinks its radius was at least 1500 miles.

The downfall of rain was greatest at the storm centre. At Cleveland it was 182 inches; Detroit, 1.15 inches, and in New York only 80-190 inch. There was a downpour that made the people think a waterspout had struck town about midnight, but it didn't last long. The tendency towards colder weather was indicated by the thermometer this morning, which registered 69 degrees at and 68 degrees at 10 o'clock it will probably continue colder to-night and to morrow, and the wind he was greater than ever known in morning, which registered 69 degrees at and 68 degrees at 10 o'clock it will probably continue colder to-night and to morrow, and the wind she strength and to morrow, and the wind is hit to west. storm was very sovere in Washington and the damage great.

Associate Justice Brown, of the Suprime Court, had an artery in his head out by a plate glass window, which was blown in at his residence, and he came were liveded as were upwooded, the streets with His

He was reported out of danger this morning, but will be confined to the

ward and moderate.

News from craft at sea came in slowly, but from sources heard from it was indicated that the gale was furtious. The harbor this morning looked like a cotton field in an earthquake, so white were the way-s.

The Western Union and Postal Telestraphic companies were an seriously crippled as by the August storm, and the managers age-med to think the elements are dealing unkindly with them in these hard times.

Wire Chief Mitchell, of the Western Union and said the said said and said the shores. The tide at South Beach did considerable damage to the board walks. So the considerable damage to the board walks at South Beach did considerable damage to the board walks. The State Island ferry-boats expending the wharves. Trees and were tossed about in the sea, causeing many of the theatre-goesa to return home seasiets.

YACHTS ASHORE IN MANY PLACES and Unknown Man Dies in Hospital of refuse business suffered greatly from the storm. Each companies suffered greatly from the storm. Each contract with Metione. It was so palpably a "doctored," which he alleged, was taken after the meconiter with Metione. It was so palpably a "doctored," when the seasies.

Were blown down in every direction, and in some Lastangez delayed the traffic on the street resistance and an and Postal Telestraphic from the storm and the storm. Each companies were so bliked to considerable damage to the coconiter with Metione. It was so palpably a "doctored," which he alleged, was taken after the meconiter with Metione. The State Island ferry-boats expending the what were to see all sout in the sea cause in the season.

The Western Union and Postal Telestraphic from the storm and postal the short walks. So the considerable damage to the considerable damage to the considerable damage to the considerable damage to the considerable from the season.

The State Island ferry-boats expending the the gale of the state of the considerable damage to the considerable damage to the considerable from the sea cause in the sea cause in the sea cause

to refuse business to all points, the only wires that worked satisfactorily being those running to Baitimore.

When the late collections of mail from the street boxes were made the collectors found nearly all the letters and papers was blown ashore at daylight this mornitorangled, some of them being so equally useless on account of a break-down of the wires at Ellisabeth.

The turnpike line between Georgetown and Oxford, Conn., was almost useless.

The Fennsylvania Railrond suffered. ennsylvania Ratirond suffered sen-

one street away from the river front.
No mails have been received from the North and East since 5 o'clock last night. Washouts are reported.

## UNKNOWN MAN DROWNED.
